COFFEE

Management of all processes in coffee processing

Liberali®

Farm4all®

COFFEE

POWERED BY
Farm4all®

The Farm4all® Coffee solution manages all post-harvest coffee processes, from the coffee harvested from the fields to its arrival at the unloading yard. It also manages the Coffee Plant processes, from pulping, processing and bagging, leaving the coffee ready for shipment and billing, also complying with the traceability required by the market.

Main notes:

- Coffee reception
- Incoming coffee weighing
- Receipt of coffee – Ground Dryer
